Experience

- July 2022 – Present

 Senior Software Developer
Bizcrum Infotect (bijnis)

Worked on multiple applications that connects factories and factories with sourcing managers and provides efficiency to factory owners so that they can easily deal with retailers and grow their businesses faster.
- April 2019 – June 2022

 Senior Software Developer
Splice Global Services

Worked with a variety of different languages, and frameworks, such as JavaScript, Redux, React-Native, React JS, Angular, Vue, etc. Led a team of 16 members for multiple projects, and delivered projects to clients.

Tools

Projects

-  **Bizcrum Infotect (bijnis)**

Bijnis.com

Technologies– React-native, Javascript, Node.,

Technical skills– CleverTap ,Branch i.o, ,CI-CD, Redux, Headless js, Deep linking, web socket.

Bijnis Sourcing app–

Buyer(Sourcing) App is a powerful mobile application designed to revolutionize the wholesale trading experience. It enables retailers to discover a wide range of products, place orders effortlessly, and connect with trusted suppliers, all in one convenient platform.

https://play.google.com/store/apps/details?id=com.shoekconnect.bizcrum&hl=en_IN&gl=US&pli=1

<https://apps.apple.com/in/app/bijnis-sourcing-app/id6464299974>

Achievement–“Transformed a Native Android app into React Native, enhancing performance across Android and iOS platforms, benefiting a user base exceeding one million users with optimized functionality and experience.”

SM-APP / RM-APP – Bijnis.com [Internal applications]

Bijnis RM and SM App empowers relationship managers with tools to streamline communication and enhance customer relationships. It offers real-time updates, order management, and personalised support, optimising the wholesale trading experience.
-  **Splice Global**

STORE TO DOOR DELIVERY – Its purpose is to deliver a person's Belongings to his doorstep in one click.
STORE TO DOOR [USER App / DRIVER App

AND-GO – Offers to book cabs near your location for the best fares at the lowest fares. CAB-BOOKING APPLICATION [DRIVER / PASSENGER]

WORDKITE – [BOOK PUBLISHING APPLICATION] The app provides any user with the ability to read/listen/view and write a book.

SWIRECARE– [VIDEO SHARING SOCIAL APPLICATION]
Caregivers can create videos and show skills, by watching the video of the caregiver user can hire a caregiver as per requirement. (Can also live chat with a caregiver)
-  **Custom NPM package**

I made a special toolbox to make it easier to build complex React Native projects. It has some useful tools, like error catchers to make the app more stable, and a advance status tracker component, etc... These tools help make the project better and the development process smoother.

<https://www.npmjs.com/package/rn-bij-ui-kit>
-  **Server-Driven-UI-kit for React Native**

Architected and implemented server-driven UI solutions for React Native, optimizing content delivery and scalability for enhanced user experiences and seamless updates.
-  **Om Shanti Store (E-com)**

Crafted the Om Shanti Store (E-com) e-commerce app, transforming the way customers and sellers connect. It offers a personalized shopping adventure, letting customers discover unique products from trusted vendors. This app makes it easy to connect, engage, and shop with confidence, providing a shopping experience like never before.
